

WEB BANNER TEMPLATES

Banner designs below represent the most common online banner sizes. Use your discretion when showing the percentage of the angled shape to the negative space; however, be sure to maintain the correct angle measurements of 75 degrees of the multiplier line. Note: Designs and dimensions are not to scale.

VERTICAL BANNER EXAMPLE ON PMS 437

The dimensions of the vertical banner are 160 x 600 pixels. The angled shape can be used as a motion graphic, as a way to change from one image to another, collect information, etc. Note: Examples are not to scale.
